SAFE STRUCTURE DESIGNS

ABOUT THE COMPANY

Our award winning 70,000 SF production facility has every angle of fabrication and finishing covered, including a dedicated 4,000 SF sewing department. Our professional staff of welders, painters, installers and designers work with you to produce a high end product to complete any project.

As a specialty contractor, we understand the growing needs of architects and engineers. We provide detailed specifications in CAD and PDF upon request.

An aerial photograph of a city skyline, likely Miami, with numerous skyscrapers and buildings. The image is overlaid with a semi-transparent yellow filter. The text is positioned on the left side of the image.

LARGEST COMMERCIAL MANUFACTURER IN FLORIDA.

HOME GROWN, AMERICAN MADE AWNINGS. REPRESENTED BY THE BEST DESIGN,
MANUFACTURING, DELIVERY, AND INSTALLATIONS PROFESSIONALS, NATIONWIDE

9 SOLID METAL

Metal Awnings are a very diverse and extremely durable awning option. The frames can be either aluminum or steel and they are engineered and built to withstand the elements. Locking, aluminum metal panels are generally used to cover the frame and provide excellent protection from both the sun and the wind. Frames and panels come in a number of styles and can be easily painted to match or accent buildings or their surroundings.

371-LIT-FLAT

INTEGRATED LED
LINEAR LIGHTING

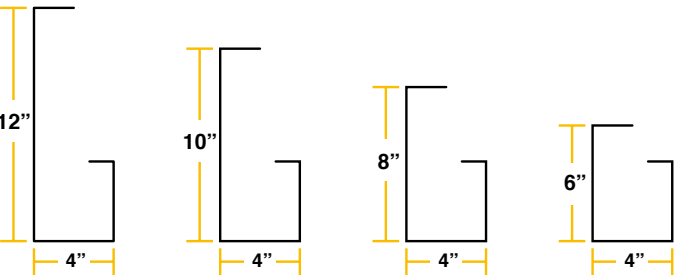

DESCRIPTION

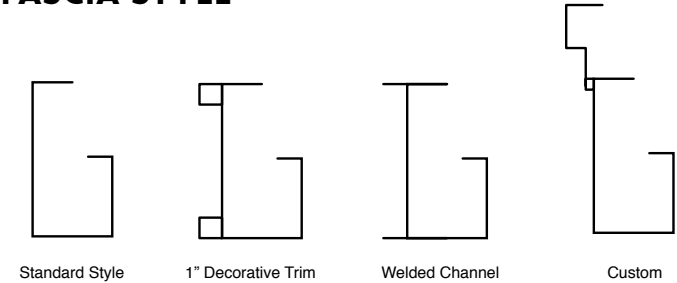

371-Lit-Flat is a horizontal sunshade and shelter featuring an integrated LED linear light on the front edge. It also includes an internal gutter system that can drain water from the front or back. Its frame is made from a solid aluminum extrusion giving it a slick seamless look, while its support arms are hinged on either end allowing you to decide the angle that best suits your building. This product can be finished with a raw aluminum look or painted to match your brand or design aesthetic.

373-SUNSHADE

ALUMINUM AWNING WITH
SLATED SUNSHADE

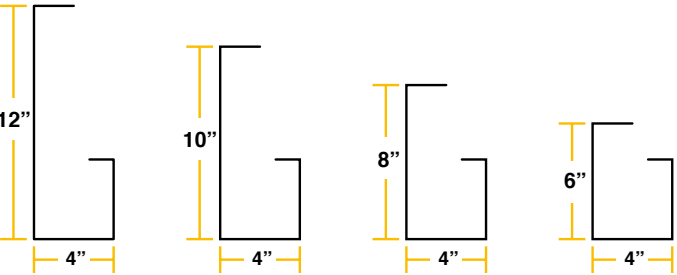

DESCRIPTION

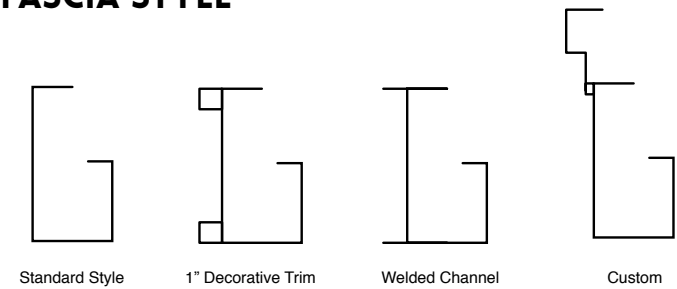

373-Sunshade, starts with a solid aluminum extrusion for a clean sleek look. In favor of a solid covering, this sunshade awning has slated ribs giving a transitional blend of sunlight and shade. This awning is mounted perpendicularly to the exterior wall with heavy load anchors to prevent sagging without the need for additional support bars.
